DIVA is for the environment

The newest exclusive **Mokador capsule system DIVA** is born to respect the **environment**.

The whole **production chain** is structured to minimize the **environmental impact** to the minimum level: starting from the reduced amount of plastic contained in capsules up to capsules' components fully reusable - external cardboard, bags and capsules components.

Thanks to **Mokador DIVA** you can **contribute to safeguard the planet and build a better future!**

WE RESPECT THE ENVIRONMENT

AMONG ALL THE VALUES,
RESPECT IS THE MOST

Innovative packaging

EASY OPEN

4X

25 PZ

100 PZ

EACH COMPONENT OF MOKADOR DIVA SYSTEM IS 100% REUSABLE.

External box in 100% recycled cardboard, without plastic components, to be thrown in the bin **PAPER** waste.

Bags to be thrown in the bin **PLASTIC** waste.

Capsule, top lid and filter to be thrown in the bin **PLASTIC** waste, coffee in the bin **ORGANIC WASTE**.

Small action, big difference

NEW MOKADOR EASY RECYCLING CAPSULES.

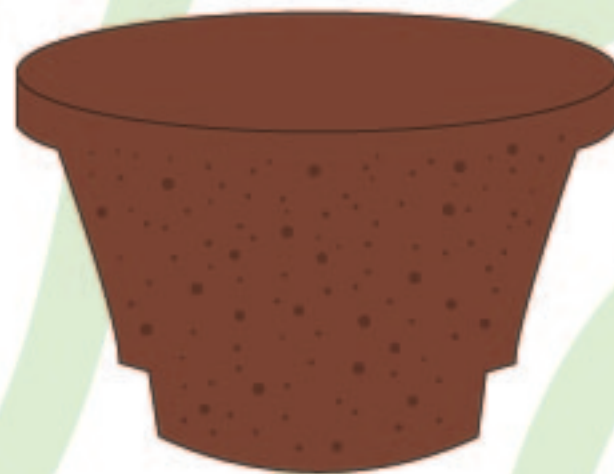

Sealed capsule with special **top lid** 100% oxygen and humidity barrier.

Filter created to optimize coffee extraction.

Roasted and ground coffee packed in a **protective atmosphere**. Coffee residual to be thrown in the **organic waste** after coffee dispensing.

Capsule studied to give a **creamy texture** while **dispensing**.

DIVA means research

INNOVATIVE COFFEE CAPSULES FOR A PERFECT CUP OF COFFEE.

This innovative coffee capsule is the result of more than 50 years of experience in the **HO.RE.CA.** market.

The shape and the design of the new exclusive Mokador DIVA system are the result of a detailed study of **coffee extraction flows.**

The capsule's shape reminds the **portafilter in professional coffee machines.**

A close-up photograph of a dark, metallic coffee capsule, likely a Mokador DIVA system component, showing its curved, ribbed surface. The image is partially obscured by a semi-transparent horizontal band containing the title text.

DIVA means innovation

In order to produce the new capsules for the exclusive Mokador DIVA system, we introduced in our Company the newest generation plants in accordance with **4.0 INDUSTRY requirements, ideal for the perfect dosing of coffee and hot drinks** under **protective atmosphere**.

Coffee grinding is obtained thanks to plants that work in several **granulometry steps**, a process which is constantly monitored through a **high precision laser system**.

THE NEWEST GENERATION PLANTS TO GUARANTEE A PERFECT ESPRESSO CONSTANT OVER TIME.

In order to preserve coffee qualities and obtain a stable final product, once grinded coffee is placed in special silos for a **degassing process**. Moreover the **100% oxygen barrier film placed in the capsule** guarantees to keep intact the organoleptic qualities as to always get a perfect cup of coffee.

Thanks to these innovations exclusive the Mokador DIVA system can guarantee:

- **an espresso with body and creaminess at their maximum sensorial level;**
- **a proved and constant quality of the product over time.**
